eConsult is a secure web-based tool that allows physicians or nurse practitioners timely access to specialist advice for all patients and often eliminates the need for an in-person specialist visit.

Why use eConsult?

- Get specialist advice for your patient fast - on average within two days
- Improves care coordination and collaboration between clinicians
- 94% of your colleagues rate the value of eConsult high/very high
- Get high-quality advice on clinical questions (e.g. diagnosis, management, drug treatment)
- Manage patient care at the family practice level where patient trust is often highest
- Get access to over 135 specialties province-wide through the BASE™ managed option

How am I compensated?

- The service is available at no cost to the provider
- Where applicable, family physicians can bill OHIP using K738 fee code
- Specialists providing services on eConsult are paid an hourly rate of \$220, pro-rated based on the length of time it takes to complete an eConsult

eConsult Case Example:

Patient with depression who has completed multiple anti-depressant trials but continues to have avolition, low energy, excessive sleepiness, low self-image and craving for sweets. PCP requests suggestions from the specialist regarding altering her medication treatment.

How do I access specialists from my own region?

- **Regional BASE™ Managed specialty groups**
 - Send an eConsult to a chosen specialty and have the case assigned to a local specialist, where available
 - Adjust your settings to reflect your regional referral pathways to ensure cases are sent to regional groups of your preference
- **Specific Provider or Group Option**
 - Self-managed specialty groups - send an eConsult to a specific local organization-based group
 - Individual specialists - send an eConsult to a specific individual specialist of your choosing
