**SEAMO Clinical Research Fellowship Program  
Call for Applications for the 2018/19 Award Competition**

---

Applications are now being solicited for the 2019/20 Award Competition of the SEAMO Clinical Research Fellowship Program (CRFP).

The purpose of the CRFP is to support the establishment of new clinical research fellow positions by providing compensation funding to departments. CRFP awardees must devote at least 80% of his or her time to research and he or she must be supervised or co-supervised by a SEAMO physician.

Up to five (5) CRFP awards will be granted for 2019/20. Awards will be for one year and renewable once. The value of an award is \$50K per annum and a department may, at its discretion, supplement the awards. Funding will normally be for the period July 1 to June 30 but adjustments to the start date will be possible if justified by an awardee's specific circumstances.

The Clinician Scientist Program Committee (CSPC), an advisory sub-committee of the SEAMO Strategic Priorities and Recruitment Committee (SPRC), will manage the CRFP application and review process and make recommendations to the SPRC regarding candidate funding. Departments make applications for awards on behalf of candidates who they have identified.

The application deadline is **September 1, 2018**. Department Heads and candidates will be advised in mid-October 2018 of decisions regarding applications for the award.
