eConsult is a secure web-based tool that allows physician or nurse practitioner timely access to specialist advice for all patients and often eliminates the need for an in-person specialist visit.

Why use eConsult?

- Get specialist advice for your patient fast – on average within two days
- Improves care coordination and collaboration between clinicians
- 94% of your colleagues rate the value of eConsult high/very high
- Get high-quality advice on clinical questions (e.g. diagnosis, management, drug treatment).
- Manage patient care at the family practice level where patient trust is often highest.
- Get access to over 100 specialties province-wide through the BASE™ managed option

How am I compensated?

- The service is available at no cost to the provider.
- Where applicable, family physicians can bill OHIP using K738 fee code.
- Specialists providing services on eConsult are paid an hourly rate of \$200, pro-rated based on the length of time it takes to complete an eConsult.

eConsult Case Example:

Patient with depression who has completed multiple anti-depressant trials but continues to have avolition, low energy, excessive sleepiness, low self-image and craving for sweets. PCP requests suggestions from the specialist regarding altering her medication treatment.

How do I access specialists from my own region?

- **Regional BASE™ Managed specialty groups**
 - Send an eConsult to chosen specialty and have the case assigned to a local specialty, where available. [Learn how to send an eConsult to a BASE™ Managed Specialty](#)
 - Adjust your settings to reflect your regional referral pathways to ensure cases are sent to regional groups of your preference. [Learn how to set your Priority Region Settings](#)
- **Specific Provider or Group Option** – [Learn how to send an eConsult](#) via Specific Provider or Group option
 - Self-managed specialty groups - send an eConsult to a specific local organization-based group
 - Individual specialists – send an eConsult to a specific individual specialist of your choosing

"I love eConsult - so many questions in my day are too big to leave, too complicated to read about, but too small to require my patient to drive 500 km to the nearest specialist. Also, e-consult allows for specialist input now, not 10 months from now."

- Dr. Larry Willms, Primary Care Provider, Sioux Lookout.
