## Ontario Health Insurance Plan

### INFOBulletin

#### Point of Care Drug Testing

#### Four point of care drug testing services eligible for payment with virtual care K-codes

---

**To:** All Physicians

**Category:** Physician Services

**Written by:** Claims Services Branch, Ontario Health Insurance Plan Division

**Date issued:** April 9, 2021

**Bulletin Number:** 210404

### Background

Further to [INFOBulletin 210402](#)

<http://www.health.gov.on.ca/en/pro/programs/ohip/bulletins/redux/bul210402.aspx>

, the change to include four point of care drug testing services to be billed with virtual care K-code services (K080, K081, K082 and K083) has been implemented April 1, 2021.

The effective date for this change is retroactive to March 14, 2020.

### Claims Processing

This means that virtual care K-codes that have been submitted will now be counted towards the minimum consult and visit requirements for the following four point of care drug testing services: G040, G041, G042 and G043. These codes will no longer be rejected with error code 'AMR-Min SRV Reqmnts not met' when one of the virtual care K-codes is paid on history or on the same claim to the same physician for the same patient within the same month, and all other requirements have been met. Eligible claims that previously rejected with error code AMR can now be resubmitted. Stale date exemption will be applied to these claims until June 30, 2021.

Effective March 14, 2021, the Schedule of Benefits for Physician Services (Schedule) has been amended to temporarily permit K080, K081, K082 and K083 to be included as a consultation or assessment for the purposes of meeting the requirements for payment of G040, G041, G042 and G043, despite any requirement in the Schedule for a direct physical encounter with the patient.
